Execution Evidence — HishabAI SME Finance Copilot

Generated by `python scripts/run_demo.py` on 2026-10-20 12:58 UTC.

All operations ran against the real HTTP server on a **sandbox database of synthetic data**. Outgoing messages are written to a sandbox outbox table, never to a real SMS or payment provider. The raw request/response log is in `evidence/execution_log.jsonl` (58 requests; passwords and session tokens redacted).

Result: 25 of 25 checks passed.

Warning: cash is expected to run out in the week of 2026-11-02 (lowest point -৳1,75,475 in the week of 2026-11-09).
My proposed plan:
• Ask Nur Fabrics Ltd to move ৳3,80,000 from 2026-11-04 to 2026-12-02.
• Ask Rahman Garments to move ৳1,20,000 from 2026-11-12 to 2026-12-10.
• Remind Karim Traders about ৳42,000 overdue since 2026-09-14.
• Remind Mitu Boutique about ৳28,500 overdue since 2026-09-28.
With these changes the lowest balance becomes -৳1,28,173 (was -৳1,75,475).
• About ৳2,10,000 of financing is still needed. Best match: Women entrepreneur SME loan (participating bank) — about ৳9,307/month at 5–7% per year, DSCR 1.61, typically 21 days to arrange.
Nothing has been sent and no money has moved. 4 action(s) are waiting for your approval.
```

Cash projection before and after the agent's plan

Week	Week start	Closing cash before	Closing cash after
1	2026-10-19	৳405,908	৳405,908
2	2026-10-26	৳392,597	৳392,597
3	2026-11-02	৳-96,021	৳283,979
4	2026-11-09	৳-175,475	৳324,525
5	2026-11-16	৳-125,483	৳374,517
6	2026-11-23	৳-61,993	৳438,007
7	2026-11-30	৳1,840	৳121,840
8	2026-12-07	৳-128,173	৳-128,173

The remaining shortfall in the week of 7 December (week 8) is covered by the matched financing option (step 6), which has time to be arranged because the supplier extensions move the first shortfall from the week of 2 November (week 3) to the week of 7 December (week 8).
